### About Web Development Training

The Web Development internship training program is designed to empower students to design and develop full fledge websites by gaining practical exposure to both front-end and back-end technologies. This program aims to provide a practical, project-based approach to hone student's skills. Students will learn how to build websites from scratch, make it look good, how to write server-side scripts, work with databases, use frameworks and much more. This program is a gateway to many web-based technologies and frameworks. You will be developing 2 projects as a part of this program.
